

POSITIONING ACTIVITY PSEUDOCODE: The CSS Code bellow is all required to make your HTML positioning assignment function. Clearly it' is NOT syntactically correct and much of the exercise has to do with you fixing the syntax.

body

font size 24px
line height 32px
color 333

fixed

position fixed
top 0
left 0
padding 40 PIXELS
margin 0
text align center
background #eee

wrapper

width 600 PIXELS
padding: 20 PIXELS
margin 0 auto

h1

margin bottom 20 PIXELS
font size 36px PIXELS
line height 45px

p

margin bottom 20px
font size 18px
line height 28px

relative

position relative
height 200 PIXELS
padding 20 PIXELS

margin bottom 20px
text align center
background #eee

absolute
position absolute
right 30 PIXELS
bottom 0
width 250 PIXELS
padding 20 PIXELS
textalign center
background 999
